Savitha Gollamudi

Lead Full Stack Engineer

savitha@example.com Hyderabad, India linkedin.com/in/example github.com/example

SUMMARY

Full stack engineer who ships product end to end: **React and TypeScript** front ends, Node.js and Python services, and the data layers underneath. Leads small teams and turns ambiguous requirements into predictable releases.

EXPERIENCE

Lead Full Stack Engineer Dec 2023 – Present

Example Company A · Hyderabad, India

- Example: leads a squad of engineers building customer-facing React/TypeScript dashboards on Node.js services.
- Example: defined API contracts and review standards; introduced typed end-to-end services.
- Example: set up performance budgets and caching for the slowest read paths.

React · TypeScript · Node.js

Senior Software Engineer 2021 – 2023

Example Company B · Hyderabad, India

- Placeholder: owned the web client of a B2B SaaS product (React, Redux Toolkit, TypeScript).
- Placeholder: introduced Storybook and visual regression tests for the shared component library.

Redux · PostgreSQL

Software Engineer 2017 – 2021

Example Company C · Bengaluru, India

- Placeholder: built Python and Node.js services backed by MongoDB for an internal platform.

Export role 1

- Highlight 1: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 2: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 3: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 4: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 5: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 6: shipped a measurable improvement to a customer-facing surface, with tests and docs.

Export role 2

- Highlight 1: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 2: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 3: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 4: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 5: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 6: shipped a measurable improvement to a customer-facing surface, with tests and docs.

Export role 3

- Highlight 1: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 2: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 3: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 4: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 5: shipped a measurable improvement to a customer-facing surface, with tests and docs.

EXPERIENCE (CONTINUED)

- Highlight 6: shipped a measurable improvement to a customer-facing surface, with tests and docs.

Export role 4

- Highlight 1: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 2: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 3: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 4: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 5: shipped a measurable improvement to a customer-facing surface, with tests and docs.
- Highlight 6: shipped a measurable improvement to a customer-facing surface, with tests and docs.

PROJECTS

Resume builder

One resume, themed per company with contrast-checked palettes.

React · Zustand

SKILLS

Frontend: React, Redux, TypeScript

Backend: Node.js, Python / FastAPI

Data: PostgreSQL, MongoDB, Redis

CERTIFICATIONS

Example cloud developer certification 2024
